

Vehicle Warranty

The last thing you need is being stuck by the roadside with a mechanical or electrical breakdown. It's not just dangerous if it happens in deserted areas or after dark, but it is also potentially expensive to repair. However, you can relax, knowing that Dialdirect has you covered with warranty products for both new and pre-owned vehicles.

Pre-Owned Mechanical Breakdown Warranty

Pre-Owned Mechanical Breakdown Warranty covers you if your car has a mechanical or electrical breakdown, like a seizing engine. We'll make sure you're covered for all the major mechanical and electrical parts, and we'll throw in the labour too.

Extended Mechanical Breakdown Warranty

Is your car under warranty right now? If yes, then Extended Mechanical Breakdown Warranty is for you. It makes sure you can still enjoy cover AFTER your manufacturer's warranty expires. We'll make sure you're covered for all the major mechanical and electrical parts, and we'll throw in the labour for that as well – free of charge.

What's more, Dialdirect will also provide unlimited cover for all the insured parts, so that you don't have to worry about the cost of a mechanical or electrical breakdown.

To find out more about these warranties, download our Pre-Owned Mechanical Breakdown Warranty and Extended Mechanical Breakdown Warranty brochures from www.dialdirect.co.za.
